As a lifelong educator with experiences at the middle school, high school, department of corrections, state agency, and university levels, I understand the difference community support can make in opportunities for children. That support doesn't mean just funding, but important factors for educational achievement such as quality teachers, a full curriculum, reasonable class sizes, technologies, and safe environments. These don't exist without adequate financial resources.

With Arizona teacher pay still hovering around 48th in the Nation, our state has more work to do to be able to attract and retain quality teachers. Locally supported funding is critical to ensuring the shortages are not more impactful.

The good news is that we can make a difference in our local Oracle School District. This November, we'll be asked to vote for an M&O override continuation. This override won't increase our taxes; rather, it will continue the taxes we are already paying. Our District has proven it delivers quality with accountability and that's important to me.

I urge you to vote YES for the Oracle School District's override continuation in November. It isn't just the right thing to do, but the smart thing too. These children are our future.
